Pay to Pee

This really is an easy-peasy way to raise money for WaterAid this World Toilet Day.

Simply donate a gold coin to WaterAid every time you use the toilet on the eve of World Toilet Day (Friday 18 November) or anytime in November.

Every dollar will help deliver safe toilets and clean water to people in the world's poorest communities. Now that's what we call money well spent!

Your **Pay to Pee** step-by-step guide

Decide on your day - or maybe even a whole week in November.

A good day to hold your Pay to Pee event would be on the eve of World Toilet Day, or on the actual day - 19 November.
You could do this with your workplace, school or community group.

Tell everybody it's happening!

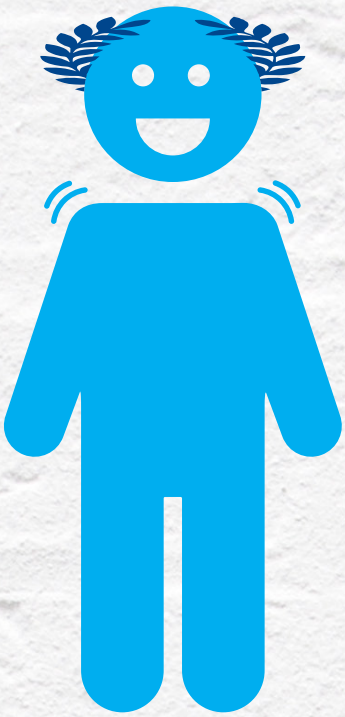
Use our handy email template to email your friends and colleagues.

During the month of November, share what you're up to on social media using the hashtags **#itsnojoke #wateraidaustralia #worldtoiletday**

Email events@wateraid.org.au for a collection box or make your own and tell everybody where it is - you can write the location on our poster.

Ways to make your change go further:

Spread the word! Encourage your neighbours (work or home) or your local cafe or pub to do their own Pay to Pee campaign.



Get people thinking about life without a toilet to encourage them to donate their change.

You could share some of the more ‘unusual’ things people have used for toilet paper over the years. Did you know, the Ancient Greeks used stones and pieces of clay (ouch!).

Once the money has come trickling in:

Add up your coins and pay it in using the following ways:

Option 1

1. Create an online supporter page via itsnojoke.com.au
2. Pay in your donation using the "Give now" button on your page.
3. You will automatically be emailed a receipt for your gift.

Option 2

1. Download our "Pay in" form from the "*get involved*" section of the It's no joke! website. Visit itsnojoke.org.au
2. Pay in your donation by cheque, bank transfer or credit card.
3. Return the "Pay in" form to WaterAid Australia and a receipt will be issued within 5 working days.

It's no joke! almost 900 children die daily due to unsafe water and poor sanitation.
