

**Task: Fill in the gaps for the definition of climate change.**

Climate \_\_\_\_\_ is a \_\_\_\_\_ change in a regions average \_\_\_\_\_ patterns — such as \_\_\_\_\_ and \_\_\_\_\_ over a long period of \_\_\_\_\_.

Climate change does happen slowly and \_\_\_\_\_ over time but the way humans live has been \_\_\_\_\_ changing the climate in ways that are having \_\_\_\_\_ impacts for the planet.

**weather      rainfall      dangerous      time      change**  
**naturally      long-term      rapidly      temperature**
