WaterAid Australia

Determined to make clean water, decent toilets and good hygiene normal for everyone, everywhere within a generation

Twice a day, every day, five-year-old Stella's mum walks a long, gruelling mountain trek to fetch water from a dirty creek for her young daughter to drink. Stella has been sick many times from water contaminated with dangerous water-borne diseases. And it is entirely preventable. With your help, Stella's life and community could change.

Supporting communities to access clean water and safe toilets is a vital step towards transforming lives.
